ANTHONY FAMILY FUND

Announcing a prize competition for a paper at the interface of EPIDEMIOLOGY, ECONOMETRICS & DEVELOPMENTAL SCIENCES.

Eligibility: Students, trainees and others who are no more than three years from their doctoral degree (or three years post-residency in the case of clinically trained doctors). Open international competition — MSU Affiliation is not required.

Requirements: Submit an essay describing your recently completed, currently ongoing or proposed research work that is as yet unpublished demonstrating an effective integration of:

EPIDEMIOLOGY | ECONOMETRIC THEORY OR METHODS | DEVELOPMENTAL SCIENCE

The paper, in English, should be between 2,500 and 4,000 words with no more than 8 tables/figures, and should be submitted as a double-spaced, paginated PDF using a font size of 12 or greater.

There is no limit on references.

Please put author(s) name and affiliation(s) on a separate page from the paper, so that the review committee may judge entries without knowledge of author identity.
